INTRODUCTION

SheSoul guides you from experiencing the Earth in the full flower of her youth to her home in the skies where she originated an eternity ago, to the realm of souls between incarnations and the miracles of love and life taking place there, and to her final arrival on Earth.

She re-members in the present and experiences both past and present on Earth simultaneously.

A living tapestry of the innate wisdom of each participant in this tale has been woven from various threads of their individual re-memberings.
